Our customized trips provide a transformative experience. Each tour features in-depth lectures and discussions by subject matter experts on topics particularly relevant to each country. Topics range from a discussion of the history of the Jewish people in a specific country to an influential historical event or person essential to that country's Jewish community, as well as scholarly presentations on secular topics of interest. Examples include:

- Beethoven's life and music when touring Austria, or,
- The history of the Spanish Inquisition and the Alhambra Decree (1492), and its enormous impact on Sephardic Jewry, while exploring Spain.

This is not your parents' travel experience! We go well beyond typical museum and architectural tours. We want our clients to be thrilled and transformed in ways that cannot be achieved with a traditional tour. Our tours are creative, fun and informative as well as interactive with the country's present-day Jewish community. Enjoy true experiential tours of a lifetime.

From Asia to Europe we offer a wide portfolio of countries to visit through the prism of the Jewish experience. We create tours using a bottom-up approach, building the itineraries and pacing the experiences from the perspective and interests of our travelers.

We have established relationships with expert, highly reliable and experienced land tour operators for all the countries we visit.

Here are some of the locations for which we offer customized experiences:

The Baltic States (Latvia,
Lithuania, Belarus) and
St. Petersburg, Russia
Budapest, Prague and Vienna
